Saga Communications, Inc. Reports 4th Quarter and Year End 2005 Results

Contact: Samuel D. Bush 313/886-7070

Grosse Pointe Farms, MI — February 28, 2006 — Saga Communications, Inc. (NYSE-SGA) today reported net operating revenue for the twelve month period increased 4.6% over the comparable period in 2004 to \$140.8 million, operating income decreased 13.9% to \$27.0 million and station operating expense increased 10.0% to \$104.4 million (station operating expense includes depreciation and amortization attributable to the stations). Net income decreased 33.3% to \$10.6 million (\$.51 per fully diluted share) for the year ended December 31, 2005 compared to \$15.8 million (\$.75 per fully diluted share) for 2004. Free cash flow increased 2.7% to \$16.6 million for the year. On a same station basis for the year, net operating revenue decreased 0.9% to \$129.7 million, operating income decreased 16.9% to \$25.3 million and station operating expense increased 3.2% to \$95.1 million.

For the quarter ended December 31, 2005, net operating revenue decreased 1.8% over the comparable period in 2004 to \$35.5 million, operating income decreased 40.0% to \$5.2 million and station operating expense increased 7.8% to \$26.9 million (station operating expense includes depreciation and amortization attributable to the stations). Net income decreased 54.3% to \$1.9 million (\$.09 per fully diluted share) for the quarter ended December 31, 2005 compared to \$4.1 million (\$.20 per fully diluted share) for 2004. Free cash flow increased 29.4% to \$5.2 million for the quarter. On a same station basis for the quarter, net operating revenue decreased 7.2% to \$33.5 million, operating income decreased 42.1% to \$5.0 million and station operating expense increased 0.7% to \$25.2 million.

The Company recorded \$3.9 million and \$2.2 million in gross political revenue for the twelve and three month periods ended December 31, 2004 compared to \$561 thousand and \$326 thousand for the comparable periods in 2005. On a same station basis, excluding political, net revenue increased 1.1% for the year and decreased 2.8% for the quarter due to a \$1.3 million decrease in automotive and wireless advertising.

The decrease in net income for the twelve month period reflects a \$1.2 million impairment charge related to the goodwill and FCC license values recorded a charge of \$2.7 million in losses on the disposal of assets including the disposal of a television tower, and the sale of land in Columbus, and a \$3.1 million increase in interest expense. For the quarter ended December 31, 2005 the impairment charge is the same as the full year and the losses incurred on the disposal of assets was \$1.2 million and the increase in interest expense was \$0.8 million. The sale of the Columbus land resulted in a \$0.7 million tax benefit in the 4th quarter as the gain for tax purposes was offset against a capital loss carry forward that was expiring as of the end of the year.

Capital expenditures in the fourth quarter of 2005 were approximately \$1.4 million with approximately \$0.1 million being spent as a result of acquisitions. For the 2005 fiscal year total capital expenditures were approximately \$10.4 million with approximately \$2.2 million being spent as a result of acquisitions.

The attached Selected Supplemental Financial Data table discloses "as reported," "same station" and "pro forma" information by segment. The "as reported" amounts reflect our historical financial results and include the results of operations for stations that we did not own for the entire comparable period. The "same station" amounts reflect only the results of operations for stations that we owned for the entire comparable period. The "pro forma" amounts assume the 2005 and 2004 acquisitions and dispositions occurred as of January 1, 2004.

Saga Communications utilizes certain financial measures that are not calculated in accordance with generally accepted accounting principles (GAAP) to assess its financial performance. Such non-GAAP measures include same station financial information and free cash flow. These non-GAAP measures are generally recognized by the broadcasting industry as measures of performance and are used by Saga to assess its financial performance including but not limited to evaluating individual station and market-level performance, evaluating overall operations and as a primary measure for incentive based compensation of executives and other members of management. Saga's management believes these non-GAAP measures are used by analysts who report on the industry and by investors to provide meaningful comparisons between broadcasting groups, as well as an indicator of their market value. These measures are not measures of liquidity or of performance in accordance with GAAP, and should be viewed as a supplement to and not as a substitute for the results of operations presented on a GAAP basis including net operating revenue, operating income, and net income. Reconciliations for all of the non-GAAP financial measures to the most directly comparable GAAP measure are attached in the Selected Financial Data Non-GAAP Disclosures tables.

Saga Communications, Inc. is a broadcasting company whose business is devoted to acquiring, developing and operating broadcast properties. The company owns or operates broadcast properties in 26 markets, including 57 FM and 30 AM radio stations, 3 state radio networks, 2 farm radio networks, 5 television stations and 4 low-power television stations. As previously disclosed, Saga has entered into an agreement to acquire an FM station serving the Asheville, NC radio market. The closing of this transaction is subject to receiving FCC approval. This press release contains certain forward-looking statements that are based upon current expectations and involve certain risks and uncertainties within the meaning of the U.S. Private Securities Litigation Reform Act of 1995. Words such as "believes," "expects," "anticipates," "guidance" and similar expressions are intended to identify forward-looking statements. Key risks, including risks associated with Saga's ability to effectively integrate the stations it acquires and the impact of federal regulation on Saga's business, are described in the reports Saga Communications, Inc. periodically files with the U.S. Securities and Exchange Commission. Readers should note that these statements may be impacted by several factors, including national and local economic changes and changes in the radio and television broadcast industry in general, as well as Saga's actual performance. Results may vary from those stated herein and Saga undertakes no obligation to update the information contained here.
